

# Polycast SolarControl® Color Selection Guide

Polycast SolarControl® sheet is a custom cell cast acrylic solution that blocks out significant amounts of near-infrared radiation while maintaining high visible light transmission. It's available in a range of colors and light transmissions, including Night Vision Compatibility (NVG).

Transparent sheet color varies, depending on lighting, background and surrounding environment. The sample photos shown below are intended to represent the general tint of each color, but physical samples are recommended to confirm color in specific applications.

## UV-SC

## NVG
